- Vividly presents a strong selection of innovative cinema designs, such as the world's first 'sci-fi' cinema and other spaces developed as an homage to modern art, Amazon rainforests, award-winning films, or other fantastical inspirations
- Lavishly features the glamorous residential interior designs of high-end luxury homes, including penthouses, apartments, and houses
- Showcases creative and dynamic designs for a range of interiors, including hotels, exhibition pavilions, department stores, supermarkets, and uniquely framed spaces, such as a toy shop set in a gothic cathedral
- Brings to light Wong's inventiveness and originality with several essays documenting his unique perspectives on design, architects, architectural styles, and commerce

In this highly-anticipated monograph, Alexander Wong presents a selection of incisive essays on contemporary architecture and design concepts, along with a wide range of magnificently photographed works, including dynamic retail spaces, glamorous and unique residential interiors, futuristic cinema design, office spaces of the future, and so much more. Each project highlights how Wong combines the best of what Asia-Pacific has to offer in superior design with an abstract aesthetic, yet high attention to detail.

Alexander Wong Architects is an award-winning, avant-garde architectural firm originating from Hong Kong. This dynamic multi-disciplinary powerhouse creates fresh, innovative, cutting-edge designs for architecture, interiors, urban planning, branding, and real estate development.
